

PLA in Rajasthan

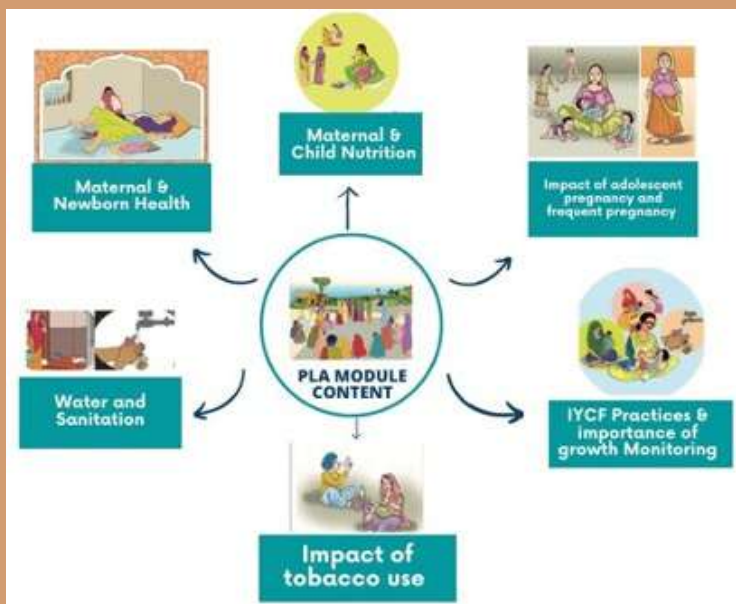

Thrive: Strengthening of VHSNC through PLA

Supporting National Health Mission, Rajasthan in strengthening of Village Health Sanitation and Nutrition Committees (VHSNCs) through Participatory Learning and Action approach. It aims at improving the health and nutrition indicators among mothers and children through community mobilisation at village level.

The intervention is a joint effort of Ekjut, IPE global and Children Investment Fund Foundation.

ASHAs are trained on content and process of one PLA meeting on a monthly basis and they conduct the VHSNC meetings using PLA techniques and tools

Highlights

- Every month: More than 6000 monthly PLA led VHSNC meetings
- More than 8000 ASHAs are trained on PLA
